

### We hope you and your family had a wonderful Easter break.

As the final term of the academic year begins, we hope this newsletter will provide you and your child with a selection of books to choose from. Research shows there is a decline in young people reading for pleasure in their free time and we know, from our work in schools, that some students don't know that there are really exciting books out there, exploring topics they're interested in! The selection within this newsletter aims to cover a wide range of interests, topics and reading accessibility to help with this. However, you could of course explore books online or in your local library/book shop too!

If your child is preparing for exams, whether internal or GCSE examinations, they will no doubt be spending time revising and preparing for these. Part of this revision will involve reading – but immersing ourselves in the world of a book is also a way to reduce stress and improve mental wellbeing.

If your child is struggling to read, please do speak to your school about this, and explore ways you could support them at home. For example, by reading with them, to them, and encouraging them to find a book which suits their interests as well as their reading level. We hope that this selection may spark some ideas for this. However, it's also worth bearing in mind that some students prefer to 'read' through audio books and that this is still a valid form of them hearing the written word in a fluent and expressive way.

**Please note that unless otherwise stated, the texts are suitable from Year 7 and up, but please do research the books before selecting them to ensure that they are appropriate for your child, as these are just a publisher's guide.**

We hope that amongst all these recommendations, you find something which interests your child and we wish you the very best of luck for this half term.

### OUT NOW:

**The Carnegie shortlist for 2024 is out now** and you can access it via [www.yotocarnegies.co.uk](http://www.yotocarnegies.co.uk). This spans books aimed at children from early years through to young adult and could offer another collection of books to choose from!

One of the benefits of reading is that it builds our empathy. The team at **EmpathyLab** share a **collection of fantastic empathy-building books** each year. The 2024 collections for primary and secondary are out now and available at <https://www.empathylab.uk/RFE-2024>.

## SHORTER-LENGTH READS

The books on the next two pages are shorter-length, which could be engaging for anyone, but they are published in a dyslexia-friendly font to help make them accessible to all. If your child doesn't have dyslexia, they can still read these wonderful books!

**Humankind: A Hopeful History**

RUTGER BREGMAN

Human beings, we're taught, are by nature selfish and governed by self-interest. *Humankind* makes a new argument: that it is realistic, as well as revolutionary, to assume that people are good. This book takes some of the world's most famous studies and events and reframes them, providing a new perspective on the last 200,000 years of human history. From the real-life Lord of the Flies to the Blitz, a Siberian fox farm to an infamous New York murder, Stanley Milgram's Yale shock machine to the Stanford prison experiment, Bregman shows how believing in human kindness and altruism can be a new way to think and act, as well as how this could be the foundation for achieving true change in our society. It is time for a new view of human nature.
