

Learning Journey Map

Year 13 – Physics

OCR
Oxford Cambridge and RSA

Further study

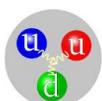

Year 13 Survival Top Tips	
Tip 1	Learn and revise vocabulary weekly, use glossaries given and - Quizlet/Seneca/Educake
Tip 2	Use Youtube & Isaac physics to help review key skills and concepts
Tip 3	Use PMT/ Bitesize/Kerboodle resources/past OCR questions
Tip 4	Use the Pixl Resources on Firefly & therapy questions
Tip 5	Read online science news, watch science documentaries

P27: Medical imaging

- X-rays & their interaction
- CAT scans
- The gamma camera
- PET scans
- Ultrasound
- Acoustic impedance
- Doppler imaging

P24: Particle physics

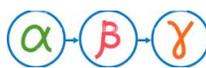

- Alpha scattering experiment
- The nucleus
- Antiparticles, hadrons & leptons
- Quarks
- Beta decay

$$\beta \text{ (beta particle)} = e_{-1}^0$$

P25: Radioactivity

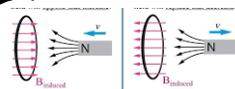

- Radioactivity
- Nuclear decay equations
- Half-life & activity
- PAG: Absorption and random nature of radiation
- Radioactive decay calculations
- Modelling radioactive decay
- Radioactive dating

P26: Nuclear physics

- Einstein's mass-energy equation
- Binding energy
- Nuclear fission
- Nuclear fusion

$$E=mc^2$$

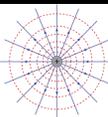

P23: Magnetic fields

- Magnetic fields
- Charged particles in B field
- Electromagnetic induction
- Faraday & Lenz's law
- Transformers

P22: Electric Fields

- Electric fields
- Coulomb's law
- Uniform E fields & capacitance
- Charged particles in E field
- Electric potential energy

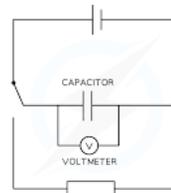

Module 6: Particles & Medical physics

P21: Capacitance

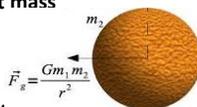

$$C = \frac{Q}{V}$$

- Capacitors and circuits
- Energy stored by capacitors
- Discharging capacitors
- Charging capacitors
- Uses of capacitors

P18: Gravitational Fields

- Gravitational fields
- Newton's Laws of gravity
- GFS for a point mass
- Kepler's Laws
- Satellites
- Gravitational potential & Energy

P19: Stars

- Objects in the Universe
- Life cycle of Stars
- Hertzsprung-Russel diagram
- Energy levels in atoms
- Spectra
- Analysing starlight
- Stellar luminosity

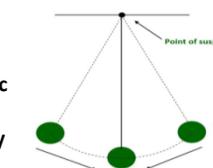

P20: Cosmology

- Astronomical distances
- The Doppler effect
- Hubble's law
- The Big Bang theory
- Evolution of the Universe

P17: Oscillations

- Oscillations
- Simple harmonic motion
- SHM and Energy
- Damping and driving
- Resonance

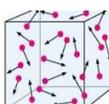

P16: Circular motion

- Angular velocity
- Centripetal acceleration
- Exploring centripetal forces

P15: Ideal gases

- The kinetic theory of gases
- Gas laws
- PAG: Estimating absolute zero: Charles' Law
- Root mean square speed
- The Boltzmann constant

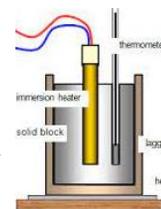

$$\frac{P_1 V_1}{T_1} = \frac{P_2 V_2}{T_2}$$

Review of summer learning

Module 5: Newtonian World and Astrophysics

P14: Thermal physics

- Temperature
- Solids, liquids, gases
- Internal energy
- Specific heat capacity
- PAG: Investigating SH capacity
- Specific latent heat

CURRICULUM OVERVIEW

Development of key scientific skills: planning valid experiments, carrying out practicals safely, displaying & processing data, as well as analysing & evaluating results

Possible careers

Research scientist, materials scientist, seismologist, mechanical engineer, architect, radiation oncology, theme park ride designer, audiologist, optician, space technology, Electrical engineer, civil engineer and many more!!
